

[e1] Helicopter
parents can cause
children to grow up
to be overly
dependent.

[e2] While watchful
parents keep their
children out of
harms way,

[e3] they also make
it difficult for
their child to
become independent
and make their own
decisions.

[e4] Children should
be able to make some
small decisions for
themselves at a
young age;

[e5] this way, they
can continue to make
bigger decisions as
they grow into teens
and young adults.

[e6] Helicopter
parents are bad for
their children.
